

NO-ONE CHOOSES TO GET COVID-19

Although for many people COVID-19 will be a mild illness, even those who do not need hospital can feel very sick. Some people will have a serious illness, and will need hospitalisation, oxygen and maybe even ventilation. For some people, COVID-19 will be fatal.

COVID-19 is not a sickness that anyone will choose to have. Our sick colleagues need our support and encouragement.

LET'S EMBRACE EACH OTHER WHEN WE RETURN TO WORK!

Continue to follow all the health guidelines
- wear a mask at all times outside your home, maintain social distancing wherever you are, cough safely, and do not come to work or leave home if you feel sick.
